When Required Fields Are Missing

☐ Require all required fields to be complete *(strict validation)*

Records with missing required fields will be rejected and skipped. All imported records will be regular records.

☒ Allow incomplete records *(no validation)*

Warning: Records with missing required fields will be imported as incomplete regular records. No validation errors will be shown.

This may cause issues in forms or reports that expect required fields to have values.

Reconcile Client Intake Records Using

☒ Record IDs

☐ Duplicate Check Fields

Import Instructions for Inserting First Shift Case Plan Using Record IDs

Client Intake - Record ID (field_160)

This is the main identifier used to locate existing records.

Client Brief Text (field_4455)

Any value (including special characters)

Date (field_3977)

Accepts the following date formats
YYYYMMDD
YYYY-MM-DD
January 1st, 2009
Jan 1 2009
mm/dd/yyyy

Program Manager (field_3978)

Any one of the following values
Diyoun
TB
Jenn
Justin
Terrance
Winard
Ricardo
Deon

My goal while at Turn90 is (field_3979)

Any value (including special characters)

Employment Goal Areas: (field_4386)

Any one of the following values (also allows other)
Employment

https://apricot.socialsolutions.com/import/prepareimport

1/4

Family / Children
Education
Housing
Financial Stability
Health
Sobriety
Relationships

Focus Area 1 (field_4384)

Any one of the following values
Reactions and Self Control (Antisocial Pattern)
Thinking Patterns (Procriminal Attitudes)
People and Influence (Peer Associations)
Work and Follow-Through (Employment/Education)
