

Re-entry Navigation Case Plan: Marcus Johnson

1. Clinical Evaluation & CBT Engagement Summary

- **Client:** Marcus Johnson
- **Supervision:** Active SCDPPPS Probation (Curfew: 9:00 PM)
- **Primary Dynamic Targets:** Employment Stability, Housing Security, Financial/Child Support Obligations.
- **Facilitation Strategy:** Utilize neutral curiosity and CBT reflective questioning to explore barriers without triggering defensiveness. Link every compliance requirement directly to Marcus's self-interest (keeping freedom, gaining financial independence, securing CDL-B).

2. Immediate Stability Action Items

1. **Health/Hypertension:** Facilitate immediate application to Welvita for 30/90-day free blood pressure medication delivery.
2. **Housing Stabilization:** Refer to Origin SC for first-time renter coaching and budget planning; coordinate with One80 Place for transitional housing backup.
3. **Legal & License Restoration:** Referral to Father to Father Project and SC Legal Services to address child support modification and SCDMV Route 66 payment plans.
4. **Employment Triage:** Refer to fair-chance warehouse/framing employers offering day shifts (\$18+/hr) that comply with Marcus's 9 PM curfew.

3. Probation Compliance & Risk Mitigation Plan

- **Curfew Compliance:** Target day-shift employment (6:00 AM – 3:30 PM) to ensure zero overlap with 9 PM probation curfew.
- **Transportation:** Identify CARTA bus routes and transit shuttles to work sites until driver's license restoration is finalized.
