

Re-entry Navigation Case Plan: Brandon Still

1. Executive Summary & Risk Profile

- **Participant Name:** Brandon Lee Still
- **Risk Assessment Level:** High Risk (LSCMI Score: 141)
- **Primary Criminogenic Drivers:** Antisocial Pattern (reactive hostility/impulsivity), Education/Employment deficits, Companions (criminal network vs. single antirriminal peer).
- **Current Placement:** Transitional Federal Halfway House (Columbia, SC).
- **Supervision Status:** 5 Years Federal Supervised Release.

2. Clinical & Facilitation Interventions

Modeling Neutrality & Managing Resistance (Standards 1.5 & 3.2)

- **Antisocial / Defensive Statements:** When Brandon discusses 'setting the tone' or acting tough with strangers, avoid arguing or direct confrontation. Use neutral curiosity: *'How does setting the tone that way affect your federal probation status if someone escalates?'*
- **Minimization & Excuses:** Acknowledge his feelings of frustration neutrally. Re-center every conversation on his self-interest: earning early discharge from supervision, earning steady income, and keeping his freedom.
- **Prosocial Lever:** Actively integrate his positive relationship with his best friend (who achieved \$180k legal income after incarceration) into goal-setting sessions as concrete proof of legal success.

3. Stability & Health Action Plan

- **ADHD Non-Stimulant Management:** Schedule an evaluation with Cooperative Health for alternative non-stimulant ADHD medication to address daytime sleepiness and focus deficits without violating federal halfway house rules.
- **Physical Outlet Integration:** Support and protect his daily structured gym/weightlifting schedule to manage restlessness and emotional stress.
- **Vocational Readiness:** Focus placement on structured, fast-paced 1st-shift physical roles (e.g., concrete, manufacturing, distribution) that keep him engaged and minimize unstructured down-time.

4. Case Management Goals & Milestones

1. **Week 1:** Complete medical intake at Cooperative Health for non-stimulant ADHD treatment.
2. **Week 2:** Submit applications to 3 fair-chance employers with 1st shift schedules.
3. **Week 3:** Attend interview skills coaching focusing on non-defensive communication.
4. **Week 4:** Secure full-time employment and establish a daily structured routine.
