

Re-entry Navigation Case Plan: Clyde Williams

1. Executive Summary & Clinical Assessment

- **Participant:** Clyde Williams (DOB: 07/30/1989)
- **Risk Level:** High Risk / Need (LS/CMI Score: 21 / 43)
- **Supervision:** Parole (18 Days Released, 15-Year Violent Burglary Sentence)
- **Primary Criminogenic Focus:** Education/Employment, Antisocial Pattern, Companions (Note: Static criminal history score of 6/8 excluded from dynamic intervention targets).
- **Stability Overview:** Housing is highly stable (resides with girlfriend in clean residential home). Primary instability stems from active unemployment, suspended driver's license, and lack of GED.

2. Dynamic Criminogenic Target Areas

1. **Education & Employment (Subscore 7/9):**
 - Needs immediate paid transitional work stabilization.
 - GED enrollment required to leverage his Brick Masonry NCCER Core certification in commercial contracting.
2. **Antisocial Pattern / Cognitive Restructuring (Subscore 3/4):**
 - Target the 'Justifying' distortion regarding parole resentment and the 'Cut Off' default under frustration.
3. **Companions / Prosocial Network (Subscore 2/4):**
 - Safely bridge the gap between extreme selective isolation ('I don't have friends') and constructive, law-abiding social networks.

3. Facilitation & Clinical Strategy (Staff Instructions)

- **Neutrality & Power Struggles:** Never debate parole requirements or past convictions. If Clyde expresses resentment over parole, reflect with neutral curiosity: *'You've put in a lot of time, so I hear your frustration. What strategy keeps parole off your back so you can build your career?'*
- **Capitalize on Strategic Mindset:** Leverage Clyde's 'chessboard' thinking style. Co-create structured, written action plans saved in his phone notes.
- **CBT Skill Building:** Practice problem-solving logs for workplace frustration to prevent impulse 'cut off' behaviors (quitting or fighting).

4. Action Plan & Timeline

- **Immediate (Days 1–7):**
 - Provide COMET bus routes and transit passes.
 - Referral to Midlands Fatherhood Coalition for SCDMV reinstatement counseling.
 - Secure immediate placement applications for high-paying fair-chance Columbia employers.
- **Short-Term (Days 8–30):**
 - Enroll in adult education/GED prep program in Richland County.
 - Complete CBT behavior logs focused on workplace communication.

- Support transition into commercial masonry/industrial employment.
