CASE MANAGEMENT BRIEF

1. Risk Profile

- Overall risk level: Medium
- Top 3 criminogenic domains:
 1. Alcohol/Drug Problem
 2. Education/Employment
 3. Criminal History
- Domain indicators:
 - **Alcohol/Drug Problem:** History of heavy daily marijuana/edible use that severely degraded mental health, accompanied by poor financial management driven by drug habits.
 - **Education/Employment:** Currently unemployed with 0 months of work in the last year; history of losing jobs due to attendance issues and workplace altercations.

- **Criminal History:** Prior adult conviction for Assault & Battery (3rd degree), history of incarceration, and inability to maintain compliance on probation (repeated violations).

2. Behavioral Indicators

- **Typical triggers:** Feeling ignored, disrespected, or facing perceived slights (e.g., waiting at a counter without eye contact).
- **Escalation tendencies:** Rapidly escalates from frustration to yelling, verbal threats, property destruction (throwing objects), and occasionally physical violence.
- **Decision-making patterns:** Highly impulsive ("Cut Off" thinking); acts before thinking to immediately relieve anger or avoid consequences (e.g., fleeing a scene to avoid jail).
- **Authority response style:** Argumentative and historically combative with figures of authority (teachers, supervisors).
- **Substance relapse patterns:** Uses substances as a coping mechanism, leading to reckless spending and worsening of anxiety/depression.

3. Pattern Over Time

- **Age at first justice involvement:** 19
- **Number/frequency of incarcerations:** At least 2 (one prison stint and recent 1-month jail term).
- **Recidivism timing patterns:** Struggles significantly with sustained supervision; kept violating probation, causing his sentence to be extended repeatedly.
- **Escalation or stability trends:** Historical trend of aggressive outbursts and minor violence/property damage, though he currently claims to want a life free of violence and anger.
- **Supervision violation history:** High rate of probation breaches and absconding when confronted by law enforcement.

4. Acute / Emergency Needs

- Mental health instability (diagnosed with anxiety and depression; currently medicated but actively seeking a psychiatrist).
- Complete lack of income/employment.

5. Stability Factors

- **Housing stability level:** Stable; currently residing in a structured transitional housing program that he finds supportive.
- **Driver's license status:** None; relies exclusively on walking and public transit.
- **Education credential status:** High School Diploma obtained.
- **Recent substance use:** Early May 2026 (recent).
- **Employment history pattern:** Sporadic; longest tenure is 2 years, often leaves due to dissatisfaction with pay, environment, or interpersonal conflict.
- **Supervision intensity:** Active probation with Turn 90 condition.

6. Legal & Placement Constraints

- **Pending charges:** None.
- **Court obligations:** Standard probation terms and Turn 90 condition.
- **Supervision restrictions:** Must maintain compliance to avoid further sentence extensions.

- **Sex Offender Registry requirement:** No.

7. Responsivity & Engagement Profile

- **Trauma reactivity:** Sensitive to feeling ignored or marginalized, which triggers acute anger and impulsivity.
- **Authority sensitivity:** History of workplace and school altercations; staff should utilize de-escalation techniques and maintain clear, respectful communication to avoid triggering defiance.
- **Motivation style:** Intrinsically motivated to "see life in a different light" and address his mental health; values money and utilizing his skills at work.
- **Learning preferences:** Responds positively to supportive, structured environments (e.g., his current transitional program).
