Need to add community resources and job search public site to resource coordination

Option 1: Anonymous Aggregate Tracking (No friction for the user) Every time someone searches for a term (like "housing") or clicks the "Visit Website & Instructions" button on a resource, I can quietly log that action in the background. We won't know who clicked it, but I can add an "Analytics" tab to your Staff Dashboard showing you exactly which resources are the most popular, what cities are getting the most traffic, and what people are searching for.

Option 2: The "Sign-In" Prompt (Low friction) When someone clicks to view a resource or asks the AI a question, a small box could pop up asking, "First name, please?" No password required. We just log whatever name they type alongside the resource they clicked.

Center Director checklist

Add lawyer/court and prerelease processes to playbook. Look for old assessment stuff

Turn90 Playbook

Turn90 Playbook

Welcome to the Turn90 Playbook. This resource has been organized into clear, accessible sections detailing our operational procedures and forms.

Program Overview

- Programs & Waitlist Management

Case Management

- 4-Week Gates & The Briefcase
- SkillCat & Case Planning
- Case Management Meetings
- Defining Stability Issues (Removal Criteria)

Staff Operations

- Data Review & Auditing Process
- Program Director Tasks
- First Shift Payment Process
- Role Checklists (Needs Completion)

Apricot Forms Reference

Documentation and outlines covering all active Apricot forms.

- Client Intake
- Community Program Screening
- Program Enrollment & Exit
- Reentry Nav Case Plan
- First Shift Case Plan
- Briefcase
- Service Record & Case Notes
- Referrals
- Drug Testing
- New Employment Record
- Employment Update
- Companies for Job Placement
- Community Service Organization
- Client Recruitment
- Partner Contacts
- Recruitment Activity
- Recidivism Tracking

Programs Overview

Resource Coordination

Primarily conducted via telephone but accessible in person for walk-in clients, this entry point allows us to meet individuals where they are and connect anyone with a criminal justice background to vital support services.

- Residing in counties outside our service area
- Immediate stabilization resources
- Job placement assistance
- Initial intake for new contacts

As a low-touch service open to any justice-involved individual, Resource Coordination focuses on providing immediate referrals before concluding active engagement. Participants may reconnect at any time; however, ongoing case management is not provided through this track.

Reentry Navigation

Reentry Navigation provides comprehensive support to participants who meet the following criteria:

- Reside within a county served by a Turn90 Center
- Were released from incarceration within the past 3 years
- Have no history of sex offense convictions
- Are at least 18 years of age
- Male

Engagement goals are customized to individual participant needs. Common reasons for participating in Reentry Navigation include:

- Awaiting First Shift enrollment due to a waitlist, during which staff assist with personal goals and early preparation
- Seeking targeted support to eliminate specific barriers without enrolling in First Shift
- Ineligibility for First Shift while remaining strong candidates for general navigation services
- Temporary ineligibility for First Shift resulting from:
 - Fewer than 12 months of sobriety without completing a formal substance use treatment program
 - Unresolved housing or transportation instability required for program readiness
 - Significant health or age-related barriers impacting employment readiness
- Removal from First Shift due to non-compliance with program requirements:
 - Some receive a plan outlining action steps to rejoin First Shift
 - Others remain eligible only for Reentry Navigation support
 - Services are fully terminated in severe instances involving violence, safety threats, or harassment to safeguard staff
- Specific criminal records that restrict placement with local commercial employers

Ultimately, Reentry Navigation guides participants toward community resources, job opportunities, and self-defined goals.

First Shift

First Shift is an intensive, 8-week rapid employment and training initiative. Participants must maintain personal stability to remain in the program; any disruption in stability requires a transition back to Reentry Navigation. Because of its fast-paced structure, First Shift remains the primary focus for program staff caseloads.

Given the program's intensity, mandatory stability checks and gates are conducted to verify readiness for competitive employment. Should a participant experience significant instability, they are redirected to Reentry Navigation for further preparation.

First Shift targets stability, cognitive skill-building, workforce preparation, and long-term retention.

Aftercare

Aftercare supports former Reentry Navigation and First Shift participants through routine follow-ups, monitoring ongoing stability, employment retention, and recidivism outcomes.

Waitlist Management

- Capacity Cap: Each center maintains a maximum of 6 active First Shift enrollments. Participants in weeks 9-12 are on a half stipend so they count as a half participant.
- Waitlist Status: Eligible candidates are assigned a "waitlist" status within Reentry Navigation via the Community Program Screening until an opening occurs.
- Enrollment Process: Openings are offered chronologically, giving candidates 24 hours to respond. Staff must re-evaluate stability before enrollment. Participants with documented stability issues in Reentry Navigation are removed with an explanatory case note, while unengaged applicants require screening re-verification. When spots are available for First Shift enrollment, we should start with the person who has been on the waitlist the longest. They have 24 hours to respond before moving on to the next participant on the waitlist. A new screening may not be necessary but stability should be reassessed. If the participant has been engaged in Reentry Nav and there are known stability or eligibility issues, that participant should be removed from the waitlist with a case note explaining why. If the participant has not been engaged with Reentry Nav, then the screening should be reverified.
- Triage Approach: Waitlist management balances fair processing with prioritizing candidates demonstrating the highest potential for success in First Shift. The goal of waitlist management is to triage those on the waitlist and prioritizing those with the most chance for success in First Shift while also treating all those on the list with a level of fairness.

- Prerelease Priority: Individuals who completed a facility-based Turn90 program receive priority placement during waitlist triaging. Prerelease participants are those who were enrolled and completed a Turn90 program inside a correctional facility. They are given priority when triaging the waitlist but not automatically enrolled ahead of others.

Case Management

Reentry Navigation & The 4-Week Gates

4-Week Job Placement Readiness Gate

Goal: Verify that each participant possesses the foundational stability, required identification, and medical support necessary to secure and sustain gainful employment.

Guidelines: Requirements do not need to be fully finalized. For instance, an upcoming appointment for state identification or medical care satisfies the readiness benchmark provided it does not delay immediate employment.

Applied across both Reentry Navigation and First Shift, these benchmarks comprise the core elements of the Briefcase form in Apricot, which additionally includes targeted job search plans and health evaluations.

Health & Wellness Observation Screen

Completed directly within the Briefcase form in Apricot, this screen must be submitted and reviewed as part of Gate 3 benchmarks.

The Briefcase & Lab Time

- The Briefcase: The comprehensive portfolio containing essential identification, professional resumes, and earned certifications.
- Lab Time: Designated operational blocks focused exclusively on supporting participants with Briefcase requirements, including document acquisition and resume building.

Operational Rule: Briefcase tasks must not be addressed during individual Case Management sessions. Staff should utilize 1-on-1 meetings to arrange appointments or schedule dedicated Lab Time, linking any outstanding items directly to the participant's case plan.

SkillCat Management

- Account Registration: Register new participants during orientation.
- Account Removal: Deactivate or remove accounts when individuals exit First Shift.

Case Management & Case Planning

Reentry Navigation Case Planning ("If This, Then That" Framework)

Case plans must align directly with identified gaps in the 4-Week Gates and Briefcase portfolio:

- Missing Social Security card or state ID in Gate 1 requires setting a target goal to schedule DMV or SSA appointments.
- Housing instability noted in Gate 2 establishes a goal to complete and submit transitional housing applications.
- Undiagnosed vision challenges identified in Gate 3 prompt a primary goal to process a Welvista referral.
- Absence of a resume in Gate 2 requires establishing a goal to build one during designated Lab Time.

First Shift Case Planning

- LS/CMI Assessment Procedure: Capture full session audio alongside a secondary backup recording.
- AI Integration Workflow: Staff upload interview transcripts to produce a comprehensive AI Case Brief.

Pattern Identification & CBT Skills: The system pinpoints key behavioral tendencies (such as substance use or antisocial patterns), which staff map directly to standard dropdown selections in the Apricot First Shift Case Plan form for weekly CBT exercise practice.

Preparation for Case Management

Staff must evaluate existing case notes, active case plans, referrals, accrued points, pattern cards linked to the participant's strategy, and current Briefcase documentation prior to individual sessions.

Weekly case planning assessments require evaluating the following areas:

- Stability Concerns: Screen for active stability issues based on established removal criteria.
- Barrier Identification: Identify immediate participant needs, determining whether local center capacity supports rapid resolution or if external community resources are required.
- First Shift Progress Verification:
 - Confirming satisfactory attendance and active attendance records.
 - Assessing comprehension and application of Phase 2 core concepts.
 - Evaluating ongoing progress in resolving barriers that impact competitive employment.
 - Reviewing engagement in Cognitive Behavioral Intervention (CBI) activities, including homework completion, active discussion, and genuine effort during role-play exercises.
- Job Placement Viability:
 - Ensuring reliable transportation covers target employment locations without ongoing staff intervention.
 - Verifying candidate qualifications against employer requirements, including conviction history exclusions, required industry credentials, and minimum educational standards.

- Confirming schedule availability aligns with supervision mandates, public safety restrictions (such as overnight work limits), and facility curfew rules.

Key components to audit during case plan reviews include:

- Identified stability or engagement concerns
- Targeted employment strategies and placement goals
- Integration of behavioral pattern cards into regular 1-on-1 skill practice
- Audit of 4-Week Gate benchmarks and Briefcase portfolio status

Case Management Session Structure

Standard 1-on-1 case management sessions follow this timed agenda:

- General Check-in (2–5 minutes): Initial rapport building and immediate updates.
- Briefcase Portfolio Review (5 minutes): Audit document progress. Note that portfolio tasks must be deferred to dedicated Lab Time, though staff may schedule required appointments during this window.
- Referral Follow-up (5 minutes): Review outstanding connections to external resources.
- Skill Practice (20 minutes): Dedicated practice of behavioral skills outlined in the case plan.
- Goal Setting (5 minutes): Establish actionable objectives for the upcoming week.

Session Wrap-up (5 minutes): Finalize documentation and confirm next steps.

Defining Stability Issues (Removal Criteria)

An occurrence of any of the following stability concerns necessitates transitioning the participant from First Shift back into Reentry Navigation, unless an explicit override is granted by the Program Director:

- New Information Limiting Job Placement Opportunities:
 - Undisclosed history of sexual offense convictions
 - Active permanent restraining orders (PRO)
 - Recent significant substance use
- Housing Instability:
 - Temporary residence in a motel
 - Unsheltered or experiencing homelessness
 - Pending eviction proceedings
 - Past-due rental obligations without a viable payment plan or funds
- Substance Abuse Concerns:
 - Positive screening on a drug test or breathalyzer
 - Noticeable odor of alcohol or marijuana
- Legal & Supervision Challenges:
 - New arrest or pending charges
 - Restrictive community supervision conditions
- Two or more unexcused, unplanned absences
- Any single instance of No Call, No Show (NCNS)
- Anticipated relocation outside the service region within six months

- Court Mandates:
 - Probation, parole, or family court obligations requiring multi-day or daily attendance during program operation hours
- Childcare Disruptions:
 - Sudden loss of primary childcare arrangements lacking immediate backup options, resulting in multi-day absences
- Transportation Barriers:
 - Primary vehicle failure without accessible repair options
 - Loss of reliable rides where public transportation alternatives are impractical
 - Inability of center transit supports (e.g., passes or rideshare services) to resolve the gap
- Mental Health Emergencies:
 - Acute psychiatric crisis requiring inpatient treatment, medication adjustments causing severe impairment, or an inability to maintain safe behavior in group settings
- Physical Health Concerns:

Acute medical conditions, traumatic injuries, or essential procedures requiring extended bed rest or severely impacting mobility

Data Review & Auditing Process

Regular quality assurance audits ensure operational fidelity and accurate reporting across all program areas.

Weekly Audits (Program Managers)

- Confirm that an active Service Record or Case Note is documented for every enrolled participant.
- Verify complete logging of weekly Drug Testing outcomes.
- Ensure immediate updates to Enrollment status whenever stability issues occur, transferring eligible participants from First Shift to Reentry Navigation as appropriate.

Monthly Audits (Center Directors)

- Audit and validate overall Waitlist accuracy.
- Review Employment Updates to ensure mandatory 30-day or quarterly check-ins are logged for all program graduates within their 12-month follow-up window.
- Verify accurate documentation for all Briefcase portfolio milestones completed during Lab Time.

Quarterly Audits (Program Director)

- Evaluate LS/CMI assessment consistency and integration of AI Case Briefs across all center operations.

- Analyze quarterly performance metrics regarding Job Placements, 30-day and 12-month Retention Rates, and Reentry Navigation completion benchmarks.

Conduct systemic data compliance checks to ensure records contain no missing or incomplete documentation.

Program Director Responsibilities

Daily Responsibilities:

- Perform continuous data review and auditing tasks.
- Conduct routine reviews and evaluations of instructional classes.

Weekly Responsibilities:

- Deliver structured training modules and educational sessions to staff members.
- Offer targeted instructional coaching and professional guidance as required.
- Audit individual 1-on-1 case management sessions for quality assurance.
- Process and execute the First Shift payment approval workflow.

Quarterly Responsibilities:

- Conduct comprehensive on-site operational visits across all program centers.

Coordinate and schedule in-person professional development workshops for program staff.

First Shift Payment Process

- Case managers log point totals on a daily basis.
- At the conclusion of the work week (Friday afternoon or Monday morning), the Program Director or designated staff member completes the following actions:
 - Navigate to Apricot report modules.
 - Generate the "first shift pay report" covering the prior weekly period (Monday through Friday).
 - Export and download the generated file.
- Import the exported file into Google Sheets or an equivalent spreadsheet application.
- Insert the calculation formula to determine total compensation:
 - Utilize SUMIF logic: =SUMIF(A:A, A2, E:E)*9
 - Enter this formula on the initial line item corresponding to each participant.

Audit all calculations to ensure overall payment accuracy across every participant record.

Role Checklists & Pending Operations

Notice: The following section requires further operational details and remains incomplete.

Program Manager Checklist

- Classroom instruction and group facilitation

- Distribution of curriculum modules and participant workbooks
- Performance evaluation scoring and tracking
- Classroom management protocols as detailed in orientation guidelines
- Daily scheduling oversight and managing schedule adjustments
- Daily point logging and entry

Program Operations

- Accurate tracking and recording of daily points
- Instructional preparation prior to sessions
- Maintaining accountability utilizing SYNAPSE and CCPS tools
- Adherence to standardized procedures and established guidelines

Center Director Responsibilities

This section is currently pending formal definition.

Credentials Tracking

This section will outline standard workflows for recording certifications acquired by Turn90 participants; additional procedures are pending development.

Apricot Forms

Client Intake

Purpose:

Establishes the foundational record for anyone accessing services, capturing core demographics, contact details, and initial screening criteria.

When to Complete:

- Log upon initial participant contact or initial referral intake.

Action Steps:

- Participant Name: Capture complete First and Last name. Middle name optional.
- Demographics & Contact Info:
 - DOB: Standard YYYY-MM-DD or MM/DD/YYYY format.
 - SSN: Standard 9-digit input.
 - Phone/Email: Verify active contact details for outreach.
- Address: Input complete residential address and select appropriate County of Residence.

Form Name	Fields and Definitions	Data Collection
Client Intake	Name - Full legal name	Information is completed on first contact, either walk-in or phone call. As much information as possible is collected except for Date of Birth and Social Security Number.
	Relationship - if the person calling is justice involved or someone connected to a family member.	
	County of Residence- county in which the participant is sleeping	
	Date of Birth (DOB)	Date of Birth and Social Security Number are not collected until later, as needed. Reasons to collect the DOB and SSN are for job placement

		purposes and/or assistance with resource applications. Therefore, collection is not necessary until program (Reentry Nav or First Shift) enrollment.
	Social Security Number (SSN)	
	Phone Number	
	Email Address	
	Current Address- current physical address where the participant is sleeping	
	Apricot ID- the identification number assigned to the participant at record creation. This is used for reporting and payment information as a unique identifier.	The Apricot ID is automatically assigned by the system and is there for informational purposes only.

Community Program Screening Form

Form Name	Fields and Definitions	Data Collection
Community Program Screening Form		A Community Program Screening must be created when screening a new participant, if we have lost contact for more than 60 days, or if a participant's situation has changed in between program enrollments. A new screening DOES NOT have to be created if a participant is transitioning directly from Reentry Nav to First Shift or First Shift to Reentry Nav, as long as the participant has maintained contact. New stability issues would be captured in the case plan, brief, and/or service records. A new screening DOES have to be created if the participant was enrolled in prerelease and is now coming into community programming.

	Date of resource coordination screening - calendar date when the screening occurs.	This phase represents initial outreach for phone calls or walk-ins to evaluate qualification for re-entry guidance services.
	Staff completing screening - staff person managing the intake session.	
	How did you hear about us? - origin or referral pathway.	
	Lives in a Turn90 Center county - indicates residency within a designated Turn90 operational county.	Eligible areas encompass Greenville and Spartanburg in the Upstate region, Lexington and Richland in the Midlands, along with Charleston, Berkeley, and Dorchester in the Lowcountry.
	Time since last release of incarceration - under 36 months versus 36 months or longer.	Incarceration covers any arrest incident, including brief stays in local detention facilities.
	Have you ever been convicted of a sex offense? - yes or no answer.	
	Age - indicates if the individual is under or over 18 years old.	
	Gender - biological sex classification.	Refers strictly to sex assigned at birth for classification and program decisions.
	Eligible based on sexual conviction(s)? - qualification determination after reviewing details or consulting leadership.	Assistance remains possible if a sexual offense conviction was connected to a kidnapping charge lacking sexual components, or a single offense qualified for registry removal. Focus is placed on identifying recurring behavior patterns. When uncertain, escalate to a program director for potential override.
	Eligible for Reentry Consultation. Is participant interested in Reentry Nav or First Shift? - yes or no selection.	This option becomes available when First Shift qualification is met. Selecting "Yes" opens the Reentry Consultation segment. Selecting "No" or failing criteria keeps the individual in general resource coordination to receive community referral lists without deeper program engagement.

	Date of Reentry Consultation - date the detailed questionnaire is processed.	The consultation requires roughly half an hour, gathering comprehensive information to establish service eligibility and pinpoint suitable support connections.
	Staff completing Reentry Consultation - staff member conducting the assessment.	
	Preferred enrollment location - choice of Charleston, Columbia, or Spartanburg sites.	
	Referral Source - options cover SCDC/Prison facilities, Probation/Parole offices, Federal halfway facilities, Public Defender/Court staff, Community agencies, Word of mouth, Online searches, Events/Flyers, or Other.	Referrals are formally linked to institutional partners (SCDC, Probation/Parole, Halfway Houses, Courts) to track incoming volume. Community organizations are not currently linked in the system.
	Current Housing Status - choices include Family home, Friend home, Private rental, Transitional facility, Federal halfway house, Hotel/Motel, or Unhoused/Unstable housing.	Evaluates overall living stability. Stable arrangements involve living with family or friends with personal access keys and guaranteed stay exceeding 30 days. Highly unstable arrangements include couch surfing, frequent address changes, lacking key access, or living in storage units. Hotel or motel stays are classed as unstable/costly, rendering applicants ineligible for First Shift.
	Do you have a birth certificate? - yes or no response.	
	Do you have your social security card? - yes or no response.	
	Do you have a state issued ID? - yes or no response.	

	Do you have a drivers license? - selections include Active, Never issued without fines, Never issued with fines, Suspended for unknown reasons, or Suspended for known reasons.	
	In the last five years, have you been prescribed medication for a physical or mental health condition? - yes or no response.	
	If yes to prescribed medication in the last 5 years, list medications and diagnosis - descriptive text area.	Displays only if an affirmative response was provided regarding recent prescription history.
	Do you have any emergency needs that must be addressed immediately for you to succeed? - select all applicable options (Imminent housing loss, Lack of transit, Missing vital IDs/SSN/Birth Certificate, Prescription needs, Urgent medical issues, General medical care, Mental health needs, Other).	
	Do you have any regular obligations that could affect your ability to attend daily or work a full shift? - Court commitments, Childcare responsibilities, Family caregiving, Personal health concerns, Other.	
	What is your transportation plan? (verify if that plan is realistic) - Lacks viable plan, Public transit, Walking,	Staff must evaluate and confirm that the proposed travel method is practical.

	Bicycle, Rides from family, Personal vehicle, Rideshare services, Other.	
	Do you have a history of major alcohol abuse? - yes or no (characterized by severe life disruptions, damaged relationships, DUI offenses, or physical altercations while impaired).	Assesses substance use severity by examining major life disruptions and recent usage. Cannabis use is excluded from this criteria and serves as an exception to the 12-month abstinence requirement.
	Did you use drugs other than marijuana? - yes or no response.	
	Do you have a history of drug abuse? - yes or no (characterized by illicit drug use causing life disruptions, relationship breakdowns, criminal involvement, theft while under influence, or illegal acts to obtain substances).	Appears when non-cannabis substance use is acknowledged.
	What drugs did you use on a regular basis? - select all relevant options (Amphetamines, Barbiturates, Benzodiazepines, Buprenorphine, Cocaine, Crack Cocaine, Marijuana/THC, MDMA, Methadone, Methamphetamine, Opiates, Oxycodone, PCP, Synthetic Cannabinoids/K2).	Appears when a history of drug abuse is selected.
	Did drug or alcohol use lead to homelessness? - yes or no response.	
	Have you used drugs other than marijuana in the last 12 months? - yes or no response.	Appears when a history of drug abuse is established.

	Have you used alcohol in the last 12 months? - yes or no response.	Appears if major alcohol abuse history is indicated. Recent drinking is evaluated only if significant alcohol issues existed previously.
	Have you recently completed a substance abuse program? - yes or no response.	Individuals are disqualified from First Shift if they have severe substance histories, recent 12-month usage, and no formal treatment completion. Exceptions may be requested for those lacking 12 months of sobriety. Passing an orientation drug screening (including cannabis) is mandatory.
	How old were you the first time you were ever arrested? - numeric entry.	Includes any juvenile arrest incidents.
	How many times, in total, have you been arrested? - numeric entry (estimates allowed).	Includes all juvenile and adult arrests.
	How many times, in total, have you been convicted of a crime(s)? Actually stood in front of a judge and was sentenced. - numeric entry.	Single conviction events may resolve multiple arrest charges.
	How many times have you been incarcerated? - numeric entry.	Incarceration requires an actual judicial sentence to jail or prison (time served included). Pretrial detention ending in acquittal is not counted as incarceration, though it fulfills recent release requirements.
	When were you most recently released from incarceration? - date entry.	
	Were you most recently released from a jail or a prison? - Jail or Prison selection.	Jails represent local county detention centers, whereas prisons refer to state or federal correctional institutions.
	How many months was the length of your most recent incarceration? - numeric entry.	

	Did your most recent criminal conviction include drug trafficking? - yes or no response.	
	Did your most recent criminal conviction include possession of a firearm? - yes or no response.	
	Does your mother or father have a criminal record? - yes or no response.	
	Have you ever been charged or convicted of a sex offense? - yes or no response.	
	Is there a pattern of sexual offending or only sexual offending present? - yes or no response.	Applicants whose sole criminal record consists of a single sexual offense are ineligible for First Shift or Reentry Navigation, as specialized services are required.
	Are you currently involved in the criminal justice system? - yes or no response.	Defined as active community supervision, halfway house placement, or active open court cases with regular justice contact.
	Current Status (Check all that apply): - Halfway house residency, State parole, State probation, Federal supervision, Open pending charges.	Multiple conditions may apply at once. Selections trigger additional conditional fields.
	Projected release date from Federal halfway house - date entry.	
	What is the projected end date of your parole? - date entry.	
	Are you in compliance with the terms of your parole? (check for pending violations) - yes or no response.	

	Is Turn90 a condition of your parole? - yes or no response.	
	How many months do you have remaining on your prison sentence before being paroled? - numeric entry.	
	What is the projected end date of your state supervision? - date entry.	
	Are you in compliance with your state supervision? (check for pending violations) - yes or no response.	
	Did you receive a diverted state sentence by coming to Turn90? - yes or no response.	Sentence diversion occurs when program placement is mandated as a supervision term via formal judicial agreement.
	How many months is your diverted state sentence? - numeric entry.	Number of prison months converted into community placement.
	What is the projected end date of your federal supervision? - date entry.	
	Are you in compliance with your federal supervision? (check for pending violations) - yes or no response.	
	Did you receive a diverted federal sentence by coming to Turn90? - yes or no response.	
	How many months is your diverted federal sentence? - numeric entry.	

	Are your pending charges state or federal? - State, Federal, or Both choices.	
	What counties are your pending charges in? - open text input.	
	What are the pending charges? - open text input.	
	Do you have any obligations to support biological children? - yes or no response.	Covers formal court orders, informal payment arrangements, or ongoing financial maintenance.
	Are you court-ordered to pay child support? - yes or no response.	
	Have you been in contact with child support enforcement to make sure you are current? - yes or no response.	
	Highest Education level - Below 9th grade, Some high school, High school diploma/GED, Some college, College degree.	
	Legally able to work? - yes or no response.	
	Physically able to work? (if older, verify health conditions / limitations) - yes or no response.	For individuals over age 50, staff must review physical capacities and medical constraints.
	Have you ever had payroll job? - yes or no response.	

	How many months were you unemployed in your last 12 months in the community? - numeric entry.	
	What is the longest period of time (in months) you have stayed at one job? - numeric entry.	
	What types of jobs have you had? - Warehousing, Logistics, Construction, Manufacturing, Food service, Landscaping, Janitorial, Retail, Administrative.	
	What usually caused jobs to end for you? - No prior employment, Pursued better option, Transit barriers, Attendance issues, Workplace conflict, Layoffs, Resigned/disliked role, Incarceration, Compensation.	
	Do you have any current certifications? - Forklift, OSHA 10, Construction, CDL, ServSafe/Food handler, CPR, First Aid, Welding.	
	Is participant willing to work? - yes or no determination.	Closing evaluation points are completed directly by staff following the screening.
	Can the participant attend program hours? - yes or no response.	
	Serious pending charges? - yes or no response.	Serious charges carry mandatory minimum sentencing. Staff must conduct additional research to evaluate whether program acceptance is feasible.

	Stable for structured program? - yes or no response.	
	Eligible for First Shift? - Accepted, Denied, or Undetermined/Override Required.	Final eligibility determination compiled from collected responses.
	If denied, what was the reason - High instability, Lacks legal/physical capacity, Released over 3 years ago, Serious open charges, Active substance use/unable to pass drug screen, Disqualifying sexual offense, Transit barriers, Unstable housing, Schedule conflicts.	
	Did you review First Shift pay and expectations? - yes or no response.	Staff must cover compensation structure and standards with eligible candidates.
	Waitlist - Place on waitlist or Remove from waitlist.	Eligible candidates are placed on the waiting list when current slots are full.
	Date added to waitlist- the date a participant is added to the waitlist	This date can change based on different scenarios. If a prerelease participant is knowingly coming to Turn90 center upon release, we can create their screening and add to the waitlist to secure a spot. If someone fails to make orientation, we can adjust this date to move them to the back of the waitlist. We can use this date field to manipulate the waitlist as we triage. This is the only way to adjust someone's priority or spot on the waitlist.
	Prerelease Program Participant - yes or no response.	Applies to individuals who participated in Turn90 facility-based pre-release programming. Waitlist priority is granted to former pre-release participants.

Program Enrollment & Exit

Purpose:

Logs enrollment, completion, and exit reasons.

When to Complete:

- Required whenever anyone starts a Prerelease, Reentry Nav, or First Shift program.
- Program enrollment must be closed/exited before a new one is created.

Enrollment & Exit Triggers

- **Pre-Release:**
 - **Enroll:** When a participant inside a correctional facility enrolls in a Turn90 program.
 - **Exit:**
- **Reentry Navigation:**
 - **Enroll:** When an eligible participant is not yet stable enough for First Shift, OR if they lose stability during First Shift, OR if they are placed on the waitlist, OR if they are not interested in First Shift.
 - **Exit:** When they achieve baseline stability (pass the 4-Week Gates) and transition to First Shift, OR if they disengage completely for 90 days, OR if they choose to disengage, OR if they
- **First Shift:**
 - **Enroll:** When a participant completes Reentry Nav (or enters directly), is stable, legally/physically able to work, and space is available.
 - All enrollments should be on the first day of the week.
 - **Exit (Successful):** Upon job placement or completion. Transition to Aftercare and Employment Tracking.
 - **Exit (Unsuccessful):** Immediate demotion to Reentry Nav if they lose stability (e.g., lost housing, failed drug test, new arrest, NCNS).

First Shift Orientation

Purpose:

Goes over First Shift participation in depth, confirms participants ability to pass a drug test, completes W9 paperwork, and completes LSCMI automated interview.

When to complete:

Any time a participant enrolls into First Shift, they must complete orientation. This includes participants re-enrolling.

Orientation is completed at 3:30 on Fridays. They may be adjusted if the Center Director is not available to complete it but they should be done the week prior to their Monday start date.

Orientation Schedule and Materials:

First Shift Materials Preparation

- Access all First Shift documentation within the shared program folder under First Shift Materials.
- Assemble the First Shift orientation packet utilizing the available binding comb machine and plastic spines (same process as module workbooks).
- Orientation Packet Assembly Guidelines:
 - Double-sided printing required for all pages.
 - Pages 1–44: Bind together and hand to the participant.
 - Pages 45–57: Print double-sided and staple separately (do not bind).
 - Pages 45–57 comprise payment card setup, tax documentation, and participant stipend agreements.

Orientation Timeline and Procedures

- Orientation starts promptly at 3:30 PM.
- Initial Step: Administer the mandatory urinalysis drug screening.
 - Group Intakes: Limit drug screen wait times to 15 minutes max (conclude by 3:45 PM).
 - Individual Intakes: Staff may allow slight flexibility, but wait times must not exceed 30 minutes.
 - Inability to produce a specimen typically indicates high risk of failure.

Orientation Packet & Payroll Documentation

- Following drug testing, walk through orientation materials with the candidate, reviewing all program standards.
- Ensure the candidate completes all payroll forms (pages 45–57).
- Pages 45-57 must be scanned, named *firstname._astname_w9* and uploaded to the First Shift W9's folder in the Program drive.

Assessment Session Protocol

- Log into the portal so the participant can complete the automated screening interview.
- Recommended Practice: Run an audio recorder during the session to safeguard against network outages, allowing subsequent manual upload.

Form Name	Fields and Definitions	Data Collection
Program Enrollment and Exit Form		A new program enrollment is required whenever anyone starts a Prerelease, Reentry Nav, or First Shift program. A participant can not be enrolled in more than one program so every program enrollment must be closed/exited before a new one is created. Participants may have multiple enrolments over time as they transition in and out of programs and/or incarceration.
	Which Program? - target path choice.	Participants join Pre-release, Reentry Nav, or First Shift. Resource Coordination does not track formal program enrollment.
	Date of orientation - calendar date orientation occurs.	
	Enrollment Start Date - calendar date active services commence.	For Reentry Nav, captures initial case planning. For First Shift, tracks the initial day of center class attendance.
	Program Enrollment - designated track.	Specifies Pre-release, Reentry Nav, or First Shift. Any track transition requires a fresh enrollment and exit record.
	At which Turn90 Center is the client enrolled? - assigned site.	Indicates the nearest center location or active First Shift facility.
	At which facility are the classes taking place? - institutional location.	Applies to facility-based Pre-release instruction inside correctional institutions.
	Date - calendar date.	
	Staff completing the assessment - staff member managing evaluation.	
	Age at assessment - numeric age at evaluation.	
	Race - racial identification category.	

	1. Any prior youth dispositions or adult convictions? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	2. Two or more prior youth/adult dispositions/convictions? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	3. Three or more prior youth/adult dispositions/convictions? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	4. Three or more present offences? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	5. Arrested or charged under age 16? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	6. Ever incarcerated upon conviction? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	7. Ever punished for institutional misconduct or a behavior report? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	8. Charge laid, probation breached, or parole suspended during prior community supervision? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	1.1 Strength? - prosocial factor evaluation.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	9. Currently unemployed? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	10. Frequently unemployed? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.

	11. Never employed for a full year? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	12. Less than regular grade 10th or equivalent? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	13. Less than regular grade 12th or equivalent? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	14. Suspended or expelled at least once? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	15. Participation / Performance - rating from 0 (disruptive) to 3 (excelling).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	16. Peer interactions - rating from 0 (hostile) to 3 (cooperative).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	17. Authority interactions - rating from 0 (defiant) to 3 (respectful).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	1.2 Strength? - prosocial education/employment indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	18. Dissatisfaction with marital or equivalent situation? - rating from 0 (severe dysfunction) to 3 (strong support).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	19. Nonrewarding parental? - rating from 0 (hostile) to 3 (warm family).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	20. Nonrewarding, other relatives? - numeric score (0 to 3).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	21. Criminal - family / spouse? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.

	1.3 Strength? - prosocial family/marital indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	22. Absence of recent participation in organized activity? - rating from 0 (unengaged) to 3 (regularly active).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	23. Could make better use of time? - rating from 0 (pervasive idle time) to 3 (excellent management).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	1.4 Strength? - prosocial leisure/recreation indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	24. Some criminal acquaintances - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	25. Some criminal friends - rating from 0 (no prosocial friends) to 3 (extensive prosocial network).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	26. Few anticriminal acquaintances - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	27. Few anticriminal friends - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	1.5 Strength? - prosocial companions indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	28. Alcohol problem, ever - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	29. Drug problem, ever - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.

	30. Alcohol problem, currently - rating from 0 (active addiction) to 3 (total abstinence).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	31. Drug problem, currently - rating from 0 (severe dependence) to 3 (clean/sober).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	32. Law violations - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	33. Marital / Family - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	34. School / Work - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	35. Medical or other clinical indicators? - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	1.6 Strength? - prosocial substance management indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	36. Supportive of crime - rating from 0 (glorifies crime) to 3 (condemns crime).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	37. Unfavorable toward convention - rating score (0 to 3).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	38. Poor, toward sentence/offense - rating score (0 to 3).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	39. Poor, toward supervision / treatment - rating score (0 to 3).	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.

	1.7 Strength? - prosocial attitude indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	40. Specialized assessment for antisocial pattern - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	41. Early and diverse antisocial behavior (items A + at least one of B, C, or D) - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	#41 Check all that apply: - multi-select options.	
	42. Criminal attitude (at least one of the following items) - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	#42 Check all that apply: - multi-select options.	
	43. Pattern of generalized trouble (at least four of the following items) - yes or no response.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	#43 Check all that apply: - multi-select options.	
	1.8 Strength? - prosocial behavior pattern indicator.	LS/CMI Field: Processed during First Shift intake to build the evidence-based risk assessment profile.
	LS/CMI Assessment Notes - descriptive details.	
	Personal problems with criminogenic potential? - yes or no response.	Evaluates Specific Risk/Need Factors from LS/CMI Sections 2, 4, or 5.

	2.1 If yes, check all that apply: - multi-select options.	
	Sexual Assault? - yes or no response.	Evaluates Specific Risk/Need Factors from LS/CMI Sections 2, 4, or 5.
	2.2.1 If yes, check all that apply: - multi-select options.	
	Nonsexual Physical Assault and Other Forms of Violence? - yes or no response.	Evaluates Specific Risk/Need Factors from LS/CMI Sections 2, 4, or 5.

	2.2.3 If yes, check all that apply: - multi-select options.	
	Social, health, or mental health issues? - yes or no response.	Evaluates Specific Risk/Need Factors from LS/CMI Sections 2, 4, or 5.
	4.1 If yes, check all that apply: - multi-select options.	
	Responsivity factors? - yes or no response.	Evaluates Specific Risk/Need Factors from LS/CMI Sections 2, 4, or 5.
	5.1 Check all that apply: - multi-select options.	
	Risk Level - calculated level indicator.	
	Clinical override? - yes or no determination.	

	Administrative / Policy Override? - yes or no determination.	
	Assessment Outcome - final qualification decision.	
	Reason for denial - primary rejection cause.	
	Notes to explain override or "other" selections - open text narrative.	
	What type of facility is the person incarcerated in? - correctional facility type.	Appears conditionally for Pre-release applicants based on initial screening forms.
	Which institution? - facility name.	
	What county will the client live in upon release? - targeted county.	
	Release date known? - yes or no response.	
	When is the client's scheduled release date? - calendar date.	
	Highest grade completed in school - education milestone level.	Appears conditionally for Pre-release applicants based on initial screening forms.
	Has the person taken any vocational training classes? - yes or no response.	
	Were they working at the time of most recent arrest? - yes or no response.	

	Have they ever had stable, full-time work for more than six months? - yes or no response.	
	Do they have any job skills or certifications? - yes or no response.	
	If they have job skills or certifications, what are they? - text description.	
	How long has the client been incarcerated? - numeric length entry.	
	Have they ever been incarcerated before? - yes or no response.	
	If yes, how many times? - numeric total.	
	Age at first arrest - numeric entry.	
	Age at first incarceration - numeric entry.	
	Have they ever violated terms of probation? - yes or no response.	Appears conditionally for Pre-release applicants based on initial screening forms.
	Do they have prior charges that are considered violent? - yes or no response.	
	Do they have prior charges for weapons possession? - yes or no response.	
	Why did they end up in prison this time? - primary conviction cause.	

	1. Top charges from this sentence: - main active charge field.	
	2. Top charges from this sentence: - secondary active charge field.	
	Have they been charged with a sexual offense? - yes or no response.	
	Have they been charged with a substance abuse offense? - yes or no response.	
	Have they participated in other programs while incarcerated? - yes or no response.	
	If yes, which ones? - program name list.	
	Did they regularly use drugs or alcohol before coming to prison? - yes or no response.	
	If yes, which substances? - multi-select option list.	
	How often? - usage frequency rate.	
	Was drug use a major part of your past criminal involvement? - yes or no response.	
	Have you ever received substance abuse treatment? - yes or no response.	

	Have you ever been diagnosed with a mental health condition? - yes or no response.	
	Does the person have close friends or family involved in criminal activity? - yes or no response.	
	Have you ever been in a gang? - yes or no response.	
	Where were you living at the time of your arrest? - prior residence address/location.	
	Date enrollment ended: - calendar date of program exit.	
	Total days in the program - calculated active days.	
	How did the client leave the program? - exit status classification.	Every enrolled participant requires a formal exit record. Pre-release outcomes cover graduation, voluntary withdrawal, or disciplinary discharge. Reentry Nav outcomes include job placement, external hiring, job search completion, returning, non-attendance (uncontactable for 60 days), termination, First Shift transfer, or re-incarceration. First Shift outcomes cover job placement, external hiring, returning to Reentry Nav for stabilization, voluntary withdrawal, termination, transitional job placement, or re-incarceration.
	How did the client exit Reentry Nav or First Shift program? - specific track exit status.	Reentry Nav exits cover employment placement, independent job finding, job search completion, returning, withdrawal/non-attendance, administrative termination, First Shift transfer, or re-arrest. First Shift exits cover employment placement, independent job finding, Reentry Nav stabilization transfer, withdrawal, administrative termination, transitional employment transfer, or re-incarceration.

	What was the reason? - underlying cause for exit.	Reasons for leaving Reentry Nav or First Shift encompass medical needs, mental health issues, attendance infractions, conduct issues, violence/threats, substance-related causes, extreme instability, housing barriers, criminal activity, or other factors.
	How did client leave the pre-release program? - institutional exit type.	Selections comprise voluntary dropout, administrative termination (violating prison or program policies), or successful graduation.

Form Name	Fields and Definitions	Data Collection

Referrals

Purpose:

Documents external partner referrals submitted to address participant stability barriers.

When to Complete:

- Log whenever connecting a participant to community providers for supportive services.

Action Steps:

- Referral Details: Input Referral Date and assigned Staff Assessor.
- Need & Organization:
 - Select Primary Need category (e.g., Housing, Basic Needs, Medical).
 - Input target Agency Name or prospective employer.
- Outcome Tracking:
 - Update Referral Outcome once service delivery is confirmed.
 - If service was not provided, specify the underlying barrier.

Form Name	Fields and Definitions	Data Collection
Referrals	Client Intake - Record ID - connects directly to the foundational intake file.	Can be generated directly inside the participant file independently, or embedded within a service record during ongoing case management.
	Date referral was made - calendar date referral process was started.	A form entry must be filed for every community partner connection made.
	Staff making the referral - staff member who initiated the process.	
	Primary Need (Reason for Referral) - options cover Identification, Transit, Basic Needs, Medical care, Behavioral Health, Legal aid, Housing, Family support, Employment Related, Job Placement, Financial Services, Education, or Other.	Broad need categories assist in mapping community support gaps and localized partner shortages across regional service areas.
	Name of Organization - designated community service agency.	Connects directly to established community partner directories.
	Referral outcome - selections include Referral / Resource Provided or Not Provided / Not Achieved.	Defaults to 'Referral / Resource Provided'. If service delivery cannot be finalized (e.g., failed communication or disengagement with the external agency), select 'Not Provided / Not Achieved'. Most entries should link to detailed case notes explaining current circumstances.
	Name of company for job referral - business name input for workplace connections.	

Service Record & Case Notes

Purpose:

Logs weekly case management coaching, check-ins, behavioral incidents, attendance updates, and financial support.

When to Complete:

- Complete weekly during active case management.
- Complete immediately following consultation meetings.
- Document notable behavioral incidents, absences, or financial assistance transactions.
- Any No Call No Show (NCNS), defined as failure to alert staff before the start of the day that they will be absent or late, and any excused or unexcused absence should be noted in a case note. For the purpose of removal from First Shift, a NCNS must exceed 3 hours no notice.

Action Steps:

- Activity Info: Input Activity Date and Staff Assessor.
- Service Context: Assign relevant service context (e.g., First Shift, Reentry Navigation).
- Interaction Details:
 - Specify interaction category (Coaching, Incident, Barrier Removal).
 - For behavioral issues, specify the exact issue (Conflict, Left Early, Attendance Issue).
- Financial Assistance: Input support type (e.g., Bus Pass, Housing) and exact dollar amount disbursed.
- Notes: Document detailed narrative regarding interactions, behavioral observations, or attendance context.

Form Name	Fields and Definitions	Data Collection
Service Record & Case Notes	Client Intake - Record ID - connects directly to the foundational intake file.	Enables logging multiple participant interactions, including case notes (for documentation purposes), supportive referrals, and employment tracking.
	Date of activity - calendar date service was delivered (cannot be a future date).	
	Staff providing service - team member filing the entry.	
	Service Context - options comprise Intake Appointment, Reentry Navigation, First Shift, Transitional	Indicate the specific program setting where contact occurred.

	Employment, or Aftercare / Alumni Support.	
	What happened during this interaction - select all applicable items: Intake Scheduled/Completed, Case Note (no contact), Check-in conversation, Coaching/case management session, Behavioral incident, Employment/Documentation/Transit assistance, Barrier removal, or Financial assistance.	Case Notes record behavioral concerns or key operational details for staff awareness (e.g., concerning conduct, threats). Check-in captures brief progress touchpoints (primarily Reentry Nav/Aftercare). Coaching represents structured, intensive sessions (case plan/CPT), required weekly in First Shift. Behavioral incidents can stand alone or align with other options. Financial Assistance tracks monetary expenditures (triggers additional conditional fields).
	Location of Appointment - choice of Charleston, Spartanburg, or Columbia sites.	
	Date of Appointment - calendar date session is scheduled or finished.	
	Behavioral issue - options include Conflict with staff, Conflict with peer, Left early / walked out, Disruptive behavior, Attendance issue (tardy / absent), or Other.	
	Financial Assistance Type - selections cover Bus Pass, Driver's License Fees, Housing, Utilities, Medical / Prescription, Eyecare / Eye Exam, or Other.	Mandatory selection when Financial assistance is indicated under interaction type.
	Dollar Amount - numerical entry of funds expended.	All direct monetary support provided to a participant must be logged.

	Notes - comprehensive narrative field for case updates or relevant detail.	Critical entry: MUST NEVER be left blank. Always detail the rationale for the session or tasks completed. Case management meetings must be formally documented per standard protocol.
--	--	---

First Shift Case Plan

First Shift Case Plan Creation Process

- Center director creates the first shift case plan after the case management brief is completed.
- The case management brief is completed within the Turn90 app.
 - The brief is based on the participant's interview recording from orientation.
- Center director creates the case plan, links it to the participant's enrollment, and uploads the PDF case management brief for the program manager.

Program Manager Review and Follow-up

- Program manager reviews the case management brief before the initial meeting with the participant in the first week.
- During the first meeting, the program manager completes the remaining forms in the case brief.
 - Discussion focuses on the participant's goals at Turn90 and patterns to address, as identified in the brief.
- The completed case brief is saved and referenced in future sessions.

Form Name	Fields and Definitions	Data Collection
First Shift Case Plan	Client Intake - Record ID - links directly to primary intake record.	Generated by center director following case brief completion. Linked to enrollment and uploaded as PDF for program manager review.
	Date - calendar date case plan is initiated.	
	Program Manager - staff member evaluating brief and completing form.	Program manager reviews brief prior to initial week-one meeting with participant to finalize remaining brief entries.
	My goal while at Turn90 is - text entry of participant target.	Staff reviews primary goals with participant during intake sessions. Saved and referenced in subsequent sessions.

	Employment Goal Areas: - options include Employment, Family / Children, Education, Housing, Financial Stability, Health, Sobriety, or Relationships.	
	Focus Area 1 - selections cover Reactions and Self Control, Thinking Patterns, People and Influence, Work and Follow-Through, Family and Relationships, Substance Use, or Time and Structure.	Evaluated with participant based on specific target behaviors highlighted within case brief.
	Antisocial Pattern Patterns - choices cover Reactive anger when corrected, Impulsive decisions under stress, Retaliatory thinking, Emotional escalation / poor regulation, Rule resistance / authority pushback, or Low frustration tolerance.	
	Procriminal Attitude Patterns - options include Minimizing consequences, Externalizing blame, Justifying illegal behavior as survival, Short-term reward focus, or Distrust of authority / rigid system thinking.	
	Peer Association Patterns - selections cover Loyalty to high-risk peers, Difficulty distancing from criminal network, Identity tied to past lifestyle, Susceptibility to peer pressure, or Lack of pro-social supports.	

	Employment/Education Patterns - choices include Difficulty accepting supervision, Inconsistent follow-through, Attendance instability, Avoidance of skill development, or Task frustration leading to disengagement.	
	Family/Marital - choices cover Escalating conflict in relationships, Avoidance of difficult conversations, Inconsistent follow-through with family commitments, Controlling or defensive communication style, or Limited healthy support within family system.	
	Substance Use - selections include Social use reinforcing risky peer ties, Using to cope with stress or emotion, Underestimating impact on employment stability, Difficulty refusing in social settings, or Motivation decline linked to marijuana use.	
	Leisure/Recreation - options cover Lack of structured pro-social activities, Idle time increasing risk exposure, Recreation tied to high-risk peer network, or Limited development of positive identity outside work.	
	Focus Area 1 Situation - open text entry for specific triggers or circumstances.	

	Focus Area 2 - options match Focus Area 1 categories.	Pinpoints secondary behavioral focus area.
	Antisocial Patterns 2 - options match primary antisocial pattern selections.	
	Procriminal Attitudes Patterns 2 - choices mirror initial procriminal attitude list.	
	Peer Associations Patterns 2 - selections mirror secondary peer interaction risks.	
	Education/Employment Patterns 2 - options match primary workplace/education barriers.	
	Family/Marital 2 - selections match primary relational conflict indicators.	
	Substance Use 2 - choices align with primary substance risk factors.	
	Leisure/Rec 2 - choices mirror primary prosocial recreation barriers.	
	Focus Area 2 Situations - detailed text input for situational context.	

Reentry Nav Case Plan Form

Form Name	Fields and Definitions	Data Collection
-----------	------------------------	-----------------

Reentry Nav Case Plan Form	Client Intake - Record ID - connects directly to primary intake record.	
	Case Manager - staff member completing form entry.	
	Case Plan - narrative outlining reentry navigation strategy.	
	Does the participant need to complete certain criteria to be eligible for First Shift - yes or no selection.	Identifies specific stability barriers or conditions candidates must resolve in Reentry Nav prior to First Shift transition.
	Requirements to be eligible for First Shift - select all applicable options (Complete treatment program certificate, Secure stable housing arrangement, Establish feasible transit plan, Address registry removal, Resolve pending court cases, Address medical/mental health issues, Clear schedule conflicts, Maintain 4 consecutive weeks of timely meetings, Complete 4 consecutive weekly meetings and pass drug screen).	Logs action steps actively addressed through case management coaching.

Briefcase Form

Form Name	Fields and Definitions	Data Collection
Case Management Briefcase	Client Intake - Record ID - connects directly to the foundational intake file.	

	90 Day Goal - open text entry for primary participant targets.	
	Gate 1 Checklist - select all applicable items (State ID/Driver's License, Social Security Card, Birth Certificate, Prescription fulfillment, Healthcare exploration, Supervision terms, Skillcat Intro completed, Skillcat track selected).	
	Section 1 Notes - descriptive narrative for Gate 1 progress.	
	Gate 2 Checklist - select all applicable options (Child support plan established, Legal cases reviewed, Child Support Enforcement outreach, Stable housing secured, Active phone contact, Probation/Supervision compliance, DMV visits, Professional email created, Resume built, Skillcat advancement).	
	Section 2 Notes - detailed text entry regarding Gate 2 requirements.	
	Gate 3 Checklist - check all relevant options (Primary care connection, Vision exam scheduled, Prescription needs addressed, Mental health/Substance recovery support, Banking account opened, Skillcat progression, Relapse prevention strategy finalized).	

	Section 3 Notes - narrative detailing Gate 3 stability milestones.	
	Gate 4 Checklist - check all applicable items (Work gear and attire, Transit arrangement, Budget finalized, Financial savings target, Credit review, 6-month employment roadmap, Long-term career vision, Skillcat track completion).	
	Section 4 Notes - open text field covering Gate 4 employment readiness.	
	List any unlisted job prospects - open text field for external opportunities.	
	Job Placement Notes - descriptive text input for workplace placement context.	
	Assigned Programs - unique system identification numbers.	
	Date of health assessment - calendar date health evaluation occurs.	
	Staff completing health assessment - staff member conducting session.	
	Section 1: Physical Health & Mobility Observations - select all applicable options (Vision, Hearing, Mobility/Pain barriers, Stamina/Fatigue, Fine Motor Skills).	

	Section 1: Physical Health & Mobility Observations Notes - open text narrative for physical observation details.	
	Section 2: Cognitive, Learning & Executive Functioning - select all applicable items (Learning disability indicators, Reading/Writing capacity, Instruction comprehension, Memory & Organization, Processing speed).	
	Section 2: Cognitive, Learning & Executive Functioning Notes - narrative detailing cognitive assessment observations.	
	Section 3: Mental Health, Trauma & Emotional Regulation - select all applicable items (Anxiety/Depression/Neurodivergence/ Trauma indicators, Emotional regulation, Anxiety/Panic, Peer interaction patterns, Baseline shifts, Avoidance behaviors).	
	Section 3: Mental Health, Trauma & Emotional Regulation Notes - detailed text input for behavioral health observations.	
	Section 4: Guided Conversation Prompts Notes - comprehensive narrative field capturing discussion outcomes.	

	Section 5: Referral Action Plan Notes - text entry documenting ongoing referral strategies.	
--	---	--

Drug Testing

Purpose:

Logs routine weekly drug and alcohol screening results.

When to Complete:

- Submit immediately after administering any drug screen or breathalyzer test.

Action Steps:

- Test Info: Input Staff Assessor, Test Date, and Time of Day (24-hour time format).
- Type & Results:
 - Select Test Type (Urine Analysis or Breathalyzer).
 - Log Test Result (Positive, Negative, or Inconclusive).
- Positive Findings:
 - For positive screens, select specific detected substances.
 - For breathalyzers, note positive/negative status and record exact BAC level.
- Notes: Include additional context or staff observations if necessary.

Drug Testing Policy

- **Pre-enrollment:** All participants must be tested prior to orientation beginning. Failing for any drug, smelling like marijuana, or smelling like alcohol is immediate termination of orientation and the participant can not start.
- **On-Site Impairment:** Any participant suspected of active use during program hours must be suspended/fired and sent home immediately.
- **Weekly Testing:** participants are randomly tested once a week. Drug testing must be supervised and temperatures checked immediately. You DO NOT have to visually watch them provide the sample, but you should be within listening distance to rule

out tampering. Tests are performed at 10:25 am, allowing a 5 minute window to test before break time. Anyone unable to provide a sample should be told to provide a sample during Q2 and reminded they must provide a sample before leaving the building.

- **Marijuana (THC):** If positive for THC only, we can restart or re-add to the First Shift waitlist if the participant returns weekly for at least 4 weeks at a scheduled time and passes a drug test.
- **Other Drugs:** Any other drugs require that participant to be removed from First Shift with any return to First Shift in the future only happening after they complete a recognized substance abuse program or remain sober for at least 12 months. While sobriety can not necessarily be verified, we can assume the ability to maintain employment, housing, and lack of justice involvement as good indicators of sobriety.
- **Irregular Tests (Temperature/Tampering):**
 - **Out of Temp:** Address immediately. Explain the impossibility of the temp without adulteration. Offer a chance for honesty. If dishonest, terminate. If honest, retest immediately.
 - **Dark Lines (Synthetic):** If lines are suspiciously dark, conduct a secondary screen later in the day.
- **Refusals:** Refusing to test, leaving the center, or failing to produce a sample is grounds for immediate termination.
- **Retesting:** Must be done immediately (no leaving the building). Passing the second test requires no action. Failing the second test (even for THC) warrants termination for lack of honesty.

Form Name	Fields and Definitions	Data Collection
Drug Testing	Client Intake - Record ID - connects directly to the primary intake file.	
	Staff Administering Test - staff member conducting the screening session.	
	Date of Test - calendar date when screening occurs.	
	Time of Day - timestamp entry (HH:MM format).	

	Drug testing agency - external screening partner or internal lab designation.	
	Type of test - screening panel method (e.g., Urinalysis, Breathalyzer).	
	Results - general screening panel outcome.	
	Positive Results - identified illicit substances detected during screening.	
	BAC Results - alcohol screening outcome (any detection above 0.00 indicates a positive result).	
	BAC Level - measured blood alcohol concentration numerical value.	
	Notes - open narrative field for screening context or relevant observations.	

New Employment Form

Purpose:

Captures baseline job placement details to monitor initial employment retention and job stability.

When to Complete:

- Complete immediately once a participant secures employment upon exit.
- Note: Confirm participant has committed to the Job Placement Agreement requirements before logging placement.

Action Steps:

- Job Details: Enter Employment Start Date and select Employer Name from directory.
- Placement Context:
 - Note if job was a direct program referral.
 - Indicate if this represents first primary employment post-release.
 - Classify placement (Primary/Secondary, Permanent/Temporary).
- Compensation & Hours:
 - Record hourly wage (numerical values only).
 - Select weekly work hours and benefit eligibility timeline.
- Status: Set Employment Record Status to Active.
- End of Employment: If employment terminates, update with last working date and end reason (Quit, Fired, Laid off). Follow record closure guidelines below.

Form Name	Fields and Definitions	Data Collection
New Employment	Client Intake - Record ID - connects directly to the foundational intake file.	
	Employment Start Date - calendar date work began.	
	Company Name - employer business name input.	
	Was this job a referral from Turn90? - selections cover Turn90 placement versus independent candidate job search.	
	Is this a person's first full-time job placement after successfully completing Turn90? - yes or no response.	

	Is this job a person's primary or secondary employment? - Primary or Secondary choice.	
	Hourly starting pay: - numerical hourly wage rate entry.	
	How many hours is the person working each week? - choices include Under 35 hours, 36–40 hours, 41–50 hours, or Over 50 hours.	
	Is the job permanent or temporary at hire? - Permanent or Temporary options.	
	Does the job offer benefits within 180 days of hire? - yes or no response.	
	When was the client's last known date of employment? - calendar date (estimates permitted).	Input best known date or record date information was confirmed.
	How did the employment end? - options cover Resigned with notice, Resigned without notice, Layoff, Termination, Re-incarceration, or Unknown.	
	If fired, what was the employer's reason? - choices cover Attendance issues, Conduct/conflict, Performance/aptitude, Low work ethic, or Lack of work.	

	Did the client change employment for a better job? - choices include Yes (advancement in compensation, schedules, or benefits), No, or Unknown.	
	Notes - open narrative field for workplace updates or context.	

Employment Update Form

Purpose:

Tracks ongoing retention, wage growth, and job changes over the 12-month follow-up window.

When to Complete:

- First 6 Months: Submit an update every 30 days (Days 30, 60, 90, 120, 180).
- Months 6 to 12: Submit quarterly updates at Month 9 (Day 270) and Month 12 (Day 365).
- Ad-hoc: Submit immediately upon learning of position changes, wage increases, or employment separation.

Action Steps:

- Update Info: Record Verification Date and Staff Assessor.
- Source & Type:
 - Select Verification Source. Note: Valid verification requires direct contact, employer confirmation, pay stub documentation, or officer check-in.
 - Select Update Type (Scheduled check-in vs. Status change).
- Employment Status:
 - Log status (Employed, Unemployed, Unable to Verify).
 - Rule: If marked 'Unable to Verify' for 3 consecutive updates, mark Employment Record closed and document outreach attempts.
 - Record internal moves (Promotion, Transfer) or employer changes.
- Compensation Updates:
 - Indicate if wage increased.

- Log starting pay and current hourly pay rate.
- Closing an Employment Record:
 - When employment ends, update last working date in main Employment Record.
 - Add final Employment Update detailing separation circumstances.
 - Update Employment Record Status to 'Closed – Job Ended' or 'Tracking Period Complete'.
 - Create a new Employment Record if participant re-engages in new work during 12-month window.

Form Name	Fields and Definitions	Data Collection
Employment Update	Client Intake - Record ID - connects directly to the foundational intake file.	
	Date employment check-in was completed by staff - calendar date entry.	
	Staff member providing update - staff person filing entry.	
	Source of update - Client, Informal network, or Jail database.	Information originates directly from graduate outreach, peer networks/family, or local detention database checks verifying incarceration past 30 days.
	Type of update - Regularly scheduled update or Status update.	Covers routine interval check-ins or immediate entries triggered by job placement changes.
	What is the client's employment status? - Still employed, No longer employed, or Unable to verify.	Indicates active job status, separation, or unconfirmed employment following outreach attempts.
	Did the client change positions within the same company since the last check-in? - yes or no response.	
	Which best describes the position change? - Promotion, Lateral move, or Demotion.	

	Did the client earn a pay raise at this job since the last check-in? - yes or no response.	
	What was the client's starting pay per hour? - numerical wage rate entry.	
	What is the client's current pay per hour? - numerical wage rate entry.	

Recidivism Tracking

Purpose:

Tracks post-program justice involvement, documenting technical supervision breaches, fresh offense details, and judicial system outcomes.

When to Complete:

Log immediately upon discovering a participant's rearrest, technical violation, or active court proceedings.

Action Steps:

Record the exact incident date and clarify whether the event involves new criminal allegations or technical supervision noncompliance.

Detail total charges, specific offense classifications, handling court jurisdiction, and whether charges involve violent behavior or federal halfway house oversight.

For technical infractions, record specific noncompliance grounds and note if supervision was formally revoked.

Form Name	Fields and Definitions	Data Collection
Recidivism Tracking	Client Intake - Record ID - connects directly to primary intake record.	Links event details back to the core participant file.

	Date of recidivism event - calendar date of offense or breach.	
	What type of recidivism: - choices include New criminal charges or Technical violation of probation or parole.	Differentiates fresh criminal arrests from administrative supervision infractions.
	Number of charges? - numeric entry of total counts.	
	What was the nature of the crime(s)? Check all that apply: - choices cover Person offenses (direct victim impact, e.g., murder, assault) or Society/Public Order offenses (victimless regulatory breaches, e.g., drug charges, gambling).	
	Which court is handling the case? - General Sessions Court or Magistrate & Municipal Court selections.	
	What was the most serious offense? - Misdemeanor or Felony options.	
	Is at least one of the charges considered violent? - yes or no response.	
	Was the person under BOP control through a federal halfway house? - yes or no response.	
	What were the technical violations? - options include Missed appointments,	

	Failed drug tests, Noncompliance with treatment/programming, Nonpayment for fines or fees, or Out of area.	
	Did the technical violation result in a revocation? - yes or no response.	Tracks formal re-incarceration stemming from supervision noncompliance.

Job Placement Agreement

The job placement agreement is reviewed with a participant BEFORE they are job placed. This agreement reviews Turn90 expectations for who that participant will conduct themselves in the next stage of their journey at a Turn90 job partner. The agreement should be reviewed, signed, and then uploaded to the participant's Apricot file in the Client Documents section.

Job Placement Agreement

Companies for Job Placement

Form Name	Fields and Definitions	Data Collection
Companies for Job Placement	Company name - employer organizational title.	Captures active employment partners for graduate hiring opportunities.
	Status - options include Active, Inactive, or Developing.	
	Type of company - industry classification covering Manufacturing, Public Works, Construction, Service sector, or Shipping and Receiving.	Manufacturing encompasses production from basic inputs or components (e.g., specialized lighting, vehicle assembly, commercial baking). Public Works includes local municipality infrastructure operations such as utility maintenance, public facilities, sanitation, road repairs, and parks. Construction involves building site activities including mixing or placing concrete and setting up scaffolding. Service sector covers maintenance, equipment repair, instructional services, or consulting. Shipping and Receiving involves stock handling, sorting, loading, and inventory logistics.

	Location - options encompass Columbia, Spartanburg, Charleston, or regional combinations across active Turn90 operational areas.	
	Address Lookup: line1 - primary street location.	Standard street location input supporting street name, numerical details, and suite or unit identifiers.
	Address Lookup: line2 - secondary facility details.	Captures building numbers, secondary suite details, or specific industrial park designations.
	Address Lookup: neighborhood - localized area identification.	
	Address Lookup: city - municipality name.	
	Address Lookup: state - state designation or postal abbreviation.	
	Address Lookup: county - local jurisdiction area.	
	Address Lookup: zip - 5-digit or 9-digit postal code.	
	Address Lookup: country - national designation.	
	Address Lookup: geolocation - coordinate mapping position.	
	Primary contact: first - mandatory given name.	First and last name inputs are mandatory, whereas middle name remains optional.
	Primary contact: middle - optional middle name input.	

	Primary contact: last - mandatory family name.	
	Title - positions cover Owner, Hiring Manager, or Direct Supervisor.	
	Phone - 10-digit or 11-digit numerical contact entry.	Accepts standard telephone formats for workplace outreach.
	Email - active electronic mail address.	
	Is there a secondary contact for this company? - yes or no selection.	
	Secondary Contact: first - optional secondary given name.	Triggers additional fields when an alternate corporate representative exists.
	Secondary Contact: middle - optional secondary middle name.	
	Secondary Contact: last - optional secondary family name.	
	Secondary title - options include Hiring manager, Owner, or Direct supervisor.	
	Secondary phone - numerical phone input.	
	Secondary email - alternate contact email input.	
	Job description - narrative summarizing key role responsibilities.	
	Shifts available - options include First, Second, Third (overnight), or All shifts.	

	Scheduled weekends - yes or no selection.	
	Starting pay per hour (LOW) - numerical entry for minimum baseline pay rate.	System ignores currency symbols or space formatting.
	Starting pay per hour (HIGH) - numerical entry for maximum initial pay rate.	
	Does the job require a driver's license? - options cover No or Depends on the position.	
	Does the job require a GED or HS Diploma? - options cover Yes, No, or Depends on the position.	
	Does the job require a Covid 19 vaccine? - yes or no response.	
	Criminal background - selections cover No exclusions, Excludes violence against persons, Excludes sexual offenses, Excludes murder / manslaughter only, or Case by case basis.	Establishes legal policy constraints to ensure appropriate participant placement matching.
	Hiring process - narrative outlining interview steps and onboarding requirements.	

Community Service Organization Form

Form Name	Fields and Definitions	Data Collection
Community Service Organization	Organization Name - full legal name	
	Organization Type - choices include Nonprofit, Government, For-profit, or Faith-based.	
	Website - main organization web URL.	
	General Phone - 10-digit or 11-digit phone number entry.	Standard phone format options accepted for general outreach.
	General Email - main organizational email address.	
	Primary Service Types - selections cover Basic Needs, Child Support, Education/GED, Employment, Financial/Banking, Housing, ID/Documentation, Legal, Medical, Mental Health, Parenting, Substance Recovery, Staffing Agency, Transit, Vocational Training, or Reentry.	Broad categories assist staff in identifying core service delivery capabilities.
	Organization Notes - narrative describing operational overview.	
	Address Lookup: line1 - street address line.	Standard physical address input supporting standard location parameters.

	Address Lookup: line2 - suite or building designation.	
	Address Lookup: neighborhood - local community area.	
	Address Lookup: city - municipality name.	
	Address Lookup: state - state or postal abbreviation.	
	Address Lookup: county - local county jurisdiction.	
	Address Lookup: zip - 5-digit or 9-digit postal code.	
	Address Lookup: country - national designation.	
	Address Lookup: geolocation - GPS coordinate coordinates.	
	Counties Served - options cover designated South Carolina operational counties.	Determines regional coverage for participant resource coordination.
	Access Method - choices cover Walk-in, Call, Online, Email, Appointment required, or Email required.	
	Hours - operational schedule overview.	

	Contact Name - primary agency representative name.	
	Contact Phone - direct telephone entry.	Accepts standard numbers, extensions, and standard phone symbols.
	Contact Email - direct electronic contact input.	
	Referral Instructions - step-by-step submission instructions.	
	Documents Required - options cover ID, SSN Card, Birth Certificate, Proof of Address, Proof of Income, Resume, or None.	
	Waitlist / Capacity Notes - current opening capacity details.	
	Age Requirement - options cover Adults only, Young adults, Youth only, Both, or Unknown.	
	Gender Served - options cover Male, Female, Both, or Unknown.	Refers to participant classification criteria for eligibility.
	Excludes Sex Offenses - yes, no, or unknown selection.	
	Excludes Violent Offenses - yes, no, or unknown selection.	
	Requires ID - yes, no, or unknown selection.	

	Requires Clean Drug Screen - yes, no, or unknown selection.	
	Requires Housing - yes, no, or unknown selection.	
	Requires Transportation - yes, no, or unknown selection.	
	Cost - choices cover Free, Sliding scale, Fee required, Insurance required, or Unknown.	
	Turn90 Priority Level - Priority, Active, or Inactive status.	
	Last Verified Date - date entry.	
	Verified By - staff member completing audit.	
	Internal Notes - staff operational detail input.	
	Is there a secondary contact? - yes or no selection.	
	Secondary contact: first - secondary given name.	First and last name required; middle name optional.
	Secondary contact: middle - optional middle name input.	
	Secondary contact: last - secondary family name.	

	Secondary contact title - optional secondary title input.	
	Secondary contact phone - secondary phone input.	Accepts valid phone formats and extensions.
	Secondary contact email - optional email address.	
	Title - options include Owner/Executive Director, Manager, or Intake Coordinator.	

Client Recruitment

Client recruitment is the activity of developing relationships with correctional institutions and staff to create a pipeline of participants who can access Turn90 services upon release.

Form Name	Fields and Definitions	Data Collection
Client Recruitment	Recruitment Source Name - partner entity title.	Captures external institutional origin details.
	Source Type - options cover State Prison, State Probation, US Probation, Federal Halfway House, Public Defender's Office, US Court, or County Detention Center.	Tracks referral channel origins to monitor volume streams.
	Region / Center Supported - choices include Charleston, Columbia, Spartanburg, or Multiple.	Designates assigned Turn90 operational sites receiving incoming referrals.
	Status - selections include Active or Target.	Indicates current engagement level for outreach pathways.

	Date Added - calendar date entry.	Standard YYYY-MM-DD or MM/DD/YYYY format supported.
	Notes - open narrative field.	Details contextual information or operational notes for staff awareness.
	Relationship Owner - options cover Justin or Kat.	Assigns primary staff lead overseeing partner agency relations.
	Relationship Stage - selections include New, Developing, Established, or Dormant.	Evaluates overall institutional partnership development.
	Typical Engagement Frequency - choices cover Monthly, Quarterly, As Needed, or Unknown.	Establishes routine touchpoint schedules for partner outreach.

Partner Contacts Form

Partner contacts are the relationships we have with staff at correctional institutions.

Form Name	Fields and Definitions	Data Collection
Partner Contacts	Client Recruitment - Record ID - connects directly to primary recruitment file.	Links event details back to the core participant file.
	Contact Name: first - mandatory given name.	First and last name inputs are required, whereas middle name remains optional.
	Contact Name: middle - optional middle name input.	
	Contact Name: last - mandatory family name.	

	Title / Role - organizational position title.	
	Contact Type - selections include Attorney, Court, Prison, Probation, or Federal Halfway House.	Differentiates partner classifications to maintain organized agency outreach records.
	Primary Contact - indicates primary organizational touchpoint.	Designates the main operational contact for partner agency relations.
	Contact Status - choices cover Active Contact or Inactive Contact.	
	Phone - standard phone entry.	Accepts standard 10 or 11-digit numbers, extensions, and standard phone symbols.
	Email - active electronic mail address.	
	Notes - open narrative field.	Captures operational background details and relevant partner information for staff awareness.
	Assigned Programs - unique system identification numbers.	
	Owner - assigned case manager user accounts.	Designates staff leads overseeing specific partner relations.

Recruitment Activity Form

Form Name	Fields and Definitions	Data Collection
Recruitment Activity	Client Recruitment - Record ID - primary unique key to locate candidate entries.	Links activity records back to the core recruitment profile.

	Date of Activity - calendar date engagement occurred.	Standard YYYY-MM-DD or MM/DD/YYYY format supported.
	Staff Member - choices include Kat or Justin.	Assigns the team lead responsible for managing the interaction.
	Activity Type - options cover Call, Email, Meeting, or Site Visit.	Tracks outreach channels to evaluate partner engagement.
	Outcome - selections include New Contact, Maintained Relationship, Client Referral, or Attempted Contact.	Monitors engagement progress across institutional outreach pathways.
	Purpose or Topic - concise summary of discussion topics or engagement objectives.	Captures operational background details and contextual narrative for staff awareness.
	Number of Individuals Reached - integer numerical value entry.	Ignores currency symbols, percentages, or space formatting.
	Next Follow-Up Date - target calendar date for future touchpoints.	Establishes routine follow-up schedules for partner relations.
	T90 Center / Region - options cover Charleston, Columbia, Spartanburg, or Statewide.	Designates assigned Turn90 operational sites supported by outreach.
	Assigned Programs - unique system identification numbers.	Links outreach records to active program structures.
	Owner - assigned case manager user accounts.	Assigns staff lead managing partner relations.

LSCMI Documents

This is the form in apricot where we store the LSCMI documents. It has uploads for the interview transcript, criminal background (state and federal), the completed interview guide, and the completed scoring manual.

Credentials

This section is to track credentials earned by participants at Turn90.

Program Management

Entering points

Preparing for class

Holding accountable with SYNAPSE and CCPS

Stick with generic stuff and processes

Center Director Roles

Participant Journey

Participant Journey

- Participant reaches out to Turn90.
- Their Client Intake is performed.
- Their Resource Coordination Screening is performed to determine eligibility.
 - If not eligible, they are given resources and referrals only. This is known as Resource Coordination
 - If eligible, their Reentry Consultation is scheduled or performed.
- Reentry Consultation collects information to determine eligibility for other programs and helps determine a case plan to help the participant reach their goals and remove barriers.
- Reentry Consultation determines eligibility for Reentry Navigation and First Shift.
 - If they remain in Reentry Navigation
 - They are enrolled into Reentry Navigation
 - Their information is fed into a program to build a case plan.
 - The case plan is loaded into apricot
 - A briefcase is created for the participant
 - The case plan and briefcase are worked on together with their Navigator
 - They remain in Reentry Navigation until we terminate services, they disengage, they move into First Shift, or they reach any and all of their desired goals.
 - If they enter First Shift
 - They are enrolled into First Shift
 - They are scheduled for orientation
 - They complete orientation
 - They complete and must pass a drug test
 - They complete a recorded interview
 - They complete their stipend agreement and W9
 - They are created in Skillcat
 - They are added to the points tracker
 - They attend daily
 - The participant attends Q2 (skillcat trades curriculum)
 - They participate in CBT classes
 - They work on their goals and briefcase
 - The center director uses the program to score their interview
 - The score is reviewed by the center director
 - The brief is created once the score is finalized
 - The LSCMI documents are downloaded and uploaded to the participants apricot file
 - First shift case plan is created and the brief is uploaded there
 - The program manager reviews the brief prior to the first case management session
 - The program manager reviews the case plan with the participant in their first meeting.

- A briefcase is completed and filled out
- The participant has at least one case management session a week
- They drug test at least once a week
- They exit the program
 - If they exit into job placement, regular job updates are entered into apricot.
 - If they exit to Reentry Nav, then those processes are followed.
